

## **Saturday's Recycling Event was a Huge Success**

Thank you to all our Cumberland & RI residents that took the time to come to our Recycling Event on Saturday April 15<sup>th</sup> to properly disposed of their hazardous and electronic waste. These items contain many harmful materials, and by taking advantage of this event, our state and town are a cleaner and safer place to live.

During the 5 hour event, we collected five twenty-four foot trucks filled with electronic waste along with additional tonnage of household hazardous waste. Propane tanks, oil based paints, lawn chemicals and florescent light bulbs were few of the items collected. We are very proud to say our residents came out in record numbers and waited in-line at times; all to do the best thing for our environment and community. It was a wonderful way to celebrate Earth Day right here in Cumberland!

Donna Kaehler  
Recycling Coordinator
